The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 12, 14, 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chatta et al. 5922295.

Chatta teaches in column 2, 4 and ex. 1 a carrier which can be cordierite (component 1), coated by alumina (component 2b). The alumina is impregnated with a catalyst (component 2c) and a compound containing P and W (component 3). The reference differs in that it does not contemplate using alkali metal, but teaches this as an option. Using the promoter metal- while acknowledging the detriments thereof- is an obvious expedient as a tradeoff between performance and expense. Further, when the feedstream does not contain S, it is an obvious expedient to use alkali metal because there will be enhancement without the poisoning.

Applicant's arguments filed 9/11/06 have been fully considered but they are not persuasive. The claims are to a catalyst, so arguments concerning the method are not persuasive. In any event, refined gasoline contains so little sulfur, that the small amount of poisoning is offset by greater NOx removal and thus an obvious expedient to add alkali. Not adding it gives no benefit, so adding it, getting a temporary benefit but later poisoning and losing the benefit is no worse.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
